誰の為に？

"People suffering from malaria in Africa、 For 310,000 elementary and junior high school students of living in Sapporo

目的:

①The purposes of JCI Sapporo are to make the elementary and junior high school students living in Sapporo learn the present condition and the differences between their own country and a foreign country and to make them self-awareness of their being a person concerned with international society and to make them change to those who can contribute to international society. ②In order to prevent the spreading of malaria and other illnesses in Africa, we spread Nothing But Nets throughout Sapporo and we complete the system to perform a continuous fund-raising activity.

Objective

目的:

概要:

"①UNMDGs was adopted as teaching materials known the differences between their own country and foreign countries. The elementary and junior high school students of Sapporo took the lecture on the U.N. Millennium-Development-Goals seminar. At the same time the opportunity of debate with foreigners who differs in much nationality was made. We let them understand the differences between thier own country and foreign countries through the debate. ②The 6th of U.N. Millennium Development Goals HIV/the prevention from spread of HIV/AIDS, malaria and other illnesses. The prevention of the spread of mararia in Africa was considered as soon as possible. In order to prevent the breakout of malaria and other capital illnesses by 2015 and make the rate of those diseases lower, we thought that we needed the system to send a mosquito net and then we highiy ricommeded Nothing But Nets.
